Press the start up button then you can start charging.

START UP

Charger's Working Mode

Charging Schedule

Last Session
For working mode, customer should choose one of them. We have Fast Mode, Dynamic Mode and Eco Mode for customer.

After click the "+" button, customer will go to this page, then you can set the Start-time and End-time, and the repeater, then click "√",it will show you a new schedule in the active schedule.

Click the Sessions and you will go to this page. It will show you the history record of the charger.

For Schedule, there are two parts, one is Active Schedule, the other is My History. Genarally, we will active one schedule, or we need to add new one.

In the active schedule page, if we disactive the schdule, then you can find the old schedule in My history.

After you set the mode and Schedule, then you can press START UP to start charging.
